Economist specializing in institutional analysis and experimental methods for the social sciences.
Interested in the intersection of incentive structures, information regimes, and emerging technologies.
Currently researching how early patent disclosure norms shaped innovation and technological adoption.

## RESEARCH EXPERIENCE

**London Business School, Department of Economics** — Winter 2023 - Summer 2024
*Post-Graduate Research Assistant for Dr. Etienne Le Rossignol* — *London, UK*

· Designed automated web scraping pipelines to construct cross-country datasets on election outcomes and development indices.
· Implemented causal analyses to evaluate institutional causes of persistent gaps in welfare and economic performance.

**London School of Economics, Department of Economic History** — Fall 2023 - Winter 2024
*Post-Graduate Research Assistant for Dr. Jason Lennard* — *London, UK*

· Constructed archival dataset from interwar government reports to support historical macroeconomic policy analysis.
· Designed document-processing workflow (OCR + validation) to ensure data reliability for econometric modeling.

**S&P Global** — Spring 2023 - Fall 2023
*Market Research Contributor* — *London, UK*

· Authored research reports on export controls, industrial policies, and strategic risk in advanced technology sectors.
· Analyzed implications for technology transfer, capital allocation, and geopolitical risk in semiconductor supply chains.

**Temple University, Department of Economics** — Spring 2022 - Spring 2023
*Post-Graduate Researcher with Dr. Rhiannon Jerch* — *Philadelphia, PA*

· Designed empirical strategy (DiD, TWFE, matching, IV) to estimate long-run impacts of large-scale public investment.
· Assembled and harmonized multi-decade county-level datasets from multiple archival sources for causal policy evaluation.

## TEACHING EXPERIENCE
